

IN THE CLAIMS:

1. (currently amended) Yarns comprising:
textile fibers, either natural or artificial, having a cut length between 60 50
and 80 100 mm, and define a cross-sectional diameter between 0.1 and 2 mm; and
metallic fibers of iron Group-VIII-metals or its their alloys, said metallic fibers
having a cut length between 30 20 and 60 80 mm, and define a cross-sectional
diameter between 0.1 and 1 mm.
2. (Cancelled).
3. (Cancelled).
4. (Cancelled).
5. (Cancelled).
6. (Cancelled).
7. (previously amended) Yarns according claim 1 comprising between 2 and
15% (in weight) in said metallic fibers and 98-85% (in weight) in said textile fibers.
8. (previously amended) Fabrics comprising said yarns according to claim 1 in
which the said yarns are comprised both in the weave and in the warp of the same fabric.
9. (original) Fabrics according to claim 8 in which the distance between the
threads (both in the weave and in the warp) is between 0.1 and 3 mm.
10. (previously amended) Fabrics according to claim 9 consisting of polyester
(90%) and stainless steel (10%) fibers.
11. (previously amended) Use of fabrics according to claim 8 for manufacturing
goods for the protection against electromagnetic pollution and for location through radar
exploration.
12. (original) Use according to claim 11 in which the said goods are suitable for
decoration of rooms.

13. (original) Use according to claim 11 in which the said goods are clothes.
14. (previously amended) Use of the fabrics according to claim 8 for the manufacturing of goods suitable to be used in water.
15. (previously amended) Buoys, lifeboats, lifejackets and similar goods comprising or covered by fabrics according to claim 8.
